

HOW MUCH DOES HIRING AN I.T. PRO REALLY COST?

HAVE YOU THOUGHT ABOUT HIRING AN I.T. PRO?

IT MAKES SENSE ON THE SURFACE...

Having someone dedicated to your technology rather than needing to call, put in a ticket, or wait every time something goes wrong.

Perhaps you've always handled the I.T., but you've gotten busy doing other things. Perhaps that tech savvy office manager has gotten tired of wearing the I.T. hat and has requested some relief.

WE GET IT.

We we ask our clients the question before they come on board with us, this is usually the answer we get. In short, hiring and I.T. Pro costs a lot more than meets the eye.

COSTS

\$60,000

Salary

\$4,908

Health Insurance

\$6,000

Bonuses Overtime

\$1,200

Desktop

\$600

Cell Phone

\$9,000

\$82,208

Annually

TIME

10 DAYS

Vacation Time

3 DAYS

Sick Days

104 Hours

LOST PRODUCTIVITY AND SUPPORT

60%

A MONTH LOST IN PRODUCTIVITY

Time is money

EXPECTATIONS VS. REALITY

Fixed Salary = Remove unknown costs accrued when something breaks

Budgeting for technology is still up and down because the equipment costs are still there

Understand all of the I.T. in the building based on proximity and repetition

Will understand most technology but will likely need to reach out to vendors regularly

Always available

One person with an average life, vacation, illness, family obligations

EXPLORE YOUR ALTERNATIVES

If you're considering hiring someone, you've reached the point of needing dedicated I.T. Support. Before you pull the trigger on these high costs, though, consider another option:

MANAGED SERVICES

You'll get the full expertise of I.T. Professionals at a truly fixed rate.
